

Humanity Phantom

Description

These mysterious creatures reside in the Chasm of the Abyss. Bearing striking resemblance to the Humanity sprite, they float about, doing damage to their enemies by making simple physical contact. They have 3 different sizes: small, medium and large. They are often encountered in groups; they can be lethal if not handled with care, as blocking has no effect.

Drops

- Humanity - common
- Twin Humanities - common

Attack

Their sole attack is very simple. They simply hover on top of you, dealing very rapid magic damage. Not too bad when there's just one of them, but can kill you very quickly in groups. Also wreaks havoc with lock-on as they can rapidly pass through you, causing your camera to follow them.

Notes

Useful for Humanity Farming.
