

Snow Rat

| |
|--|
| |
| |

Description

Their behavior is identical to the Small Undead Rat, but they are white, have slightly more HP, and inflict Toxic instead of Poison.

Location

Painted World of Ariamis

| Playthrough | HP | Souls |
|-------------|-----|-------|
| New Game | 237 | 400 |
| NG+ | 372 | 800 |
| NG+6 | 466 | 1,000 |

Drops

Humanity - uncommon

Attacks

- Biting attack - Basic attack, swinging its head against the player. Toxic buildup on hit. The toxin's HP loss rate is 7 HP/seconds.
- Standing attack - Will get up on it's back-feet and kind of drop down with it's paws. Also builds up Toxic on hit.
- Headbutt - Used as a quick stagger if you're nearby.
- Leap - Used if player is within medium range, extended version of the headbutt.

Strategy

- Don't get surrounded by these rats as even if you block its attacks, it still builds up toxin.
- Block safely using 100% toxin resistance shields. i.e. Spider Shield, Crystal Shield, and Greatshield of Artorias.
