

# PSN IDs

## UPDATED PROCESS FOR THIS SYSTEM

“ Please read all the instructions. It will make your life easier in the long run.

1. This page is locked as the new system updates this page automatically.
2. The new process is to enter your PSN ID in the input box. This will create a page with your PSN ID.
3. When you first create the page it will prompt you with a form. Please fill out the form.
  - Only the page owner can update their page. This means you must join the site in order to update your pages later.
4. Once the form is filled out your information will automatically be updated in the new table. Each time you modify your PSN ID page the table will update.
5. The table is ordered by latest update automatically.
6. You can rank a player by clicking on their PSN ID and on their page there is a rating button
  - **NOTE** To help prevent "anonymous attacks" you **must be a member of the site** to rank and your member name **will** be visible to all. Since you will be a member you should keep in mind *they will be able* to find which PSN ID you own, so think hard before you hit the negative button!
  - To see who ranked you, go to the bottom of the page and there is an option for viewing Rankings.
7. You can now also post comments on a users page. If this gets abusive I will remove it.
