

Rare Ring of Sacrifice

In Game Description

This mystical ring was created in a sacrificial rite of Velka, the Goddess of Sin. The magenta-shaded ring is especially rare. Its wearer will lose nothing upon death, and will be freed from any curse whatsoever, but the ring itself breaks. "Die, lose nothing, nullify curse, ring breaks."

Use

With this ring equipped, the player will not be hollowed, lose any souls or humanity upon death and will not be cursed if a curse was the cause of death. The ring will then break.

Availability

- In a chest in Sen's Fortress guarded by Undead Prince Ricard
- Trade one Twin Humanities with Snuggly the Crow
- New Londo Ruins, on the edge of the building where you meet Ingward
- Lost Izalith

Notes

Warning: Despite the in-game description, dying with this ring equipped will **not** remove an already existing curse, only prevent you from getting cursed when you die from curse
