

# Ultra Greatswords

Ultra Greatswords push the concept of power and range even further than regular Greatswords. They are massive, Strength-focused weapons that can effortlessly break an opponent's guard and inflict enormous damage. Each swing consumes substantial Stamina and is very slow, making every attack a significant commitment. Landing a blow often staggers or stun-locks enemies, potentially allowing multiple follow-ups. However, whiffed attacks expose the player to severe counterattacks. Ultra Greatswords suit builds that capitalize on raw damage, poise-breaking, and punishing mistakes rather than relying on speed or mobility.

<https://jadepilled.github.io/souls-model-viewer/ds1/stat-viewer/wepgen.html?item=Black%20Knight%20Greatsword>

“ Greatsword of the black knights who wander Lordran. Used to face chaos demons.

The large motion that puts the weight of the body into the attack reflects the great size of their adversaries long ago.

## Availability

Dropped by the (non-respawning) greatsword-wielding Black Knight atop the Undead Parish watchtower near the Altar of Sunlight, just past the Hellkite Dragon, and the Kiln of the First Flame (20% drop rate)

## General Information

This weapon's two-handed light swings consume sixty stamina each.

Like all Black Knight weapons, it deals extra damage to demon enemies, such as Taurus Demons and Capra Demons.

In the German version of the game, this sword has a completely different name: "Schwert des Drachentöters", which translates to "Sword of the Dragon Slayer", whereas the normal Black Knight Sword is called "Schwarz-Ritter Großschwert", which translates to "Black Knight Greatsword".

In the French version of the game, this sword is called "Espadon tueur de dragons", which means "Dragon Killing Zweihänder".

In the Italian version of the game, this sword is called "Ammazzadraghi", which means "Dragon Slayer". This, along with the sword's German and French names mentioned above, likely references the massive "Dragonslayer" sword used by Guts, the main character of the manga Berserk.

The non-respawning Black Knight in the Undead Parish is **not** guaranteed to drop the sword. Ignore the knight at first, and get the Covetous Gold Serpent Ring from Sen's Fortress, then leave (or continue on to Anor Londo to teleport between bonfires), go back to the Undead Parish, and have at least 10 soft Humanity with the ring equipped before killing the knight. This will increase the chances of getting a drop.

Can not be buffed.

<https://jadepilled.github.io/souls-model-viewer/ds1/stat-viewer/wepgen.html?item=Dragon%20Greatsword>

“ *This sword, one of the rare dragon weapons, came from the tail of the stone dragon of Ash Lake, descendant of the ancient dragons.*

*Its great mystical power will be unleashed when wielded with two hands.*

## Availability

---

Tail drop from the Stone Dragon in Ash Lake. The Dragon doesn't get hostile, so walk behind him and strike his tail several times until it falls off.

## General Information

---

Raises Magic and Fire defense by 20 points.

Cannot be enchanted.

Even though this weapon doesn't have any scaling, it has the highest base damage of any weapon in the game. Because of this, the Dragon Greatsword can do comparable amounts of damage to other ultra greatswords.<sup>1</sup> The drawback is that it cannot be enchanted and the minimum STR requirement of at least 34 for two-handing it.

Using its two-handed mystical power will drain 50 durability with each use.

# Key

<b>Damage:</b>	<p>The Damage stat dictates how much damage the weapon does. The Damage stats for a weapon are W / X / Y / Z:</p> <ul style="list-style-type: none"><li>• W is Physical Damage</li><li>• X is Magical Damage</li><li>• Y is Fire Damage</li><li>• Z is Lightning Damage</li></ul> <p>Each weapon has one or more physical damage types:</p> <ul style="list-style-type: none"><li>• Normal</li><li>• Striking</li><li>• Slashing</li><li>• Thrusting</li></ul> <p>Certain enemies are weak or strong against different types of damage types.</p>
<b>Critical:</b>	<p>One of the multipliers (in percent) for the bonus damage on criticals, such as backstabs and ripostes.</p>
<b>Durability:</b>	<p>The health of the weapon. The effectiveness of the weapon will severely deteriorate when the durability falls below 30%.</p>
<b>Weight:</b>	<p>The weight of the weapon. Note that carrying over 50% of a character's Equip Burden will reduce the speed of their rolls, while going over 100% will reduce their regular speed to walking and attempts to roll or backstep will leave them momentarily stunned.</p>

<b>Stats Needed:</b>	<p>The Stats Needed determines how high various Stats must be in order to wield the weapon effectively. The Requirement stats for a weapon are W / X / Y / Z:</p> <ul style="list-style-type: none"> <li>• W is the Strength required</li> <li>• X is the Dexterity required</li> <li>• Y is the Intelligence required</li> <li>• Z is the Faith required</li> </ul> <p>Wielding a weapon without the required Strength and/or Dexterity will incur a penalty to the Physical damage of the weapon, while lower-than-required Magic and/or Faith will reduce the Magic damage of the weapon.</p> <p>Also keep in mind that a character gains a 50% bonus to Strength by wielding a weapon with both hands, thus reducing the actual Strength required.</p> <p>For example, a character with 18 Strength can wield a Large Club (Requires 26 Strength) properly if the weapon is held with both hands.</p> <p><math>(18 \times 1.5 = 27)</math></p>
<b>Damage Reduction %:</b>	<p>The Damage Reduction stat dictates the percentage of damage reduced while blocking. The Damage Reduction stats for a weapon are W / X / Y / Z:</p> <ul style="list-style-type: none"> <li>• W is the Physical Damage Reduction</li> <li>• X is the Magical Damage Reduction</li> <li>• Y is the Fire Damage Reduction</li> <li>• Z is the Lightning Damage Reduction</li> </ul>
<b>Stability:</b>	<p>The stability of the weapon. The higher this value, the less stamina is consumed when blocking attacks.</p>
<b>Frampt Souls:</b>	<p>This is the amount of souls players will receive if they feed the item to Kingseeker Frampt.</p>

## Footnotes

1. when two handing this weapon, only 16 Strength is required
